### MEETING AGENDA

TIME	TOPIC	SPEAKER
15 min	New Production Issues	MOPs / SQM / Dev
15 min	Outstanding issues / Open Items & Activities	Team
5 min	Release milestones	Team
5 min	Roadmap	Team
10 min	Roundtable	Team

### ISSUES & ACTION ITEMS

#	TOPIC	ACTIONS/PROGRESS	STATUS	TARGET DATE
1.	Custom sound file (.wav) crashed OTR's PrecISE FE during a trade (when they received a partial fill). Work-around for the time being is to turn off sound in Preferences (set to 'None').	Fix in R10		R10

### NEW / OUTSTANDING / OPEN ITEMS

#	DESCRIPTION	PRIORITY	STATUS/RESOLUTION/RESPO NSE	OWNER
1.	SPOT and Susquehanna are asking to have a PrecISE terminal mapped to their DTI sessions. This could be a lot of traffic for the FE. They want the ability to access the kill switch for some of their BUs without having to load order and trade activity on the FE.		Need to test mapping ABC01E as a PrecISE user & entitled to access Kill Switch (not as a Master User). Kill Switch entitled user should log into PrecISE and access the Kill Switch for ABC02E and ABC03E without having to see the order/trade activity of ABC02E, ABC03E.	SQM
2.	QCCwStock ticket: Should modification of Delta populate NetPrice if net price have not being populated? It's agreed that it would be populated and modified on changes in grid prices and delta, but not on delta only, in that case it should be conditionally populate market price if grid prices are not populated and grid prices otherwise, right? What should be in NetPrice if one of the grid prices is not populated, should it use market price only for that leg or should not populate the net price?			Team
