ISSUES & ACTION ITEMS

#	TOPIC	ACTIONS/PROGRESS	STATUS	TARGET DATE
1.	Is a signed 5.7.2 version available to post on the Internet?			
2.	2/28: A Wells Fargo PrecISE user was attempting to open a Spread Regular order ticket and was receiving an error which would not let him open the ticket	Member is on 5.3. Underlying issue is unknown. Possible causes: incorrectly populated values in dropdown control, user's settings/defaults are in the state causing the issue. Next step: copy the user's profile to our environ and try to replicate the issue. SIR?		

NEW / OUTSTANDING / OPEN ITEMS

#	DESCRIPTION	PRIORITY	STATUS/RESOLUTION/RESPONSE	OWNER
1.	1/30: OTR user George said that he got an error message when he tried to open a spread ticket. He shut down Precise re-opened and then was able to send spread. Logs show an exception, which is from populating a list box within a ticket. Unfortunately we cannot tell what field is causing it.		Dev is investigating. User will be upgraded to 5.7 in the meantime. Same issue as Wells Fargo above.	Dev
2.	11/14 in Prod: Spread AMR reject from PHLX, AMEX, and ARCA. MPT did not have all the data. Rejects are due to the order of the FIX tags - 564 (LegPositionEffect) then 654 (LegRedID) In test, Citi's FIX tags were re-ordered differently than what they processed in Prod	On Hold	Possible solutions, since Cameron cannot re-order the FIX tags: <ul style="list-style-type: none"> Citi to re-order tags (Prod and test should be the same) Replace Cameron translator with a FIX engine for AMR 	Dev
